Classes

Mommy and Me Montessori:

Designed for children ages 18 to 36 months with a Parent / Caregiver, each Mommy & Me session meets for a 45 minutes informal Montessori. During such time, your child will be free to explore age-appropriate Montessori materials, making his or her own choices from classroom shelves and working at his or her own pace in a carefully prepared and peaceful environment under Montessori teacher and Parent / Caregiver guidance. These materials encourage development of toddler independence, concentration, confidence, fine motor skills, respect for others and a love of learning.

Montessori Cooking: Food preparation and cooking are some of the most fun practical life activities in a Montessori environment! This class consists in creating individualized food preparation which children can choose on their own, rather than group cooking.

Montessori Math: Teaches numbers, addition and subtraction, shapes, patterns, measurements; and more! Our games and creative activities make math fun while giving young learners the practice they need to build a strong foundation for success.

Montessori Language Arts: Spans the entire range of early reading, from learning the names and sounds of each letter to being able to read books, starting with a few words and gradually advancing to paragraphs.

Art Class: Learn about artists and make your own masterpiece inspired by them using different techniques and tools. This class encourages kids to be creative and develop social skills while interacting with others. It also develops self-esteem as they learn to express themselves through art.

Science Class: It is time to make a mess and experiment with different materials! With this class children will discover that after mixing certain ingredients and following simple directions they can create something fantastic!

Ballet Class: The Inspire School of Ballet mission is to INSPIRE students to be all they can be both on and off stage. They are passionate about providing a positive environment where children learn through the art of dance, the value of discipline, hard work, creativity and artistry.

Music Class: Come join us for this wonderful class with "Music Speaks Studio". Music helps the body and the mind work together. Exposing children to music during early development helps them learn the sounds and meanings of words. Dancing to music helps children build motor skills while allowing them to practice self-expression.

NEW!
